PARENT NOTE SENT HOME

St. Ann Catholic School has agreed to partner with Dr. Deborah Moncrieff from the University of Memphis in a research study on "Identification and Treatment of Dichotic Listening Deficits in School Age Children." A parent letter and consent form was sent home last week. This is a unique and valuable opportunity for all of our students, beginning at age five, in identifying dichotic listening issues and early intervention. **There is no charge for testing.** If you choose to participate, please return the signed consent form to your child's homeroom teacher by Thursday, Sept. 7th. Testing will begin on Friday, Sept.

8th. As we receive results, parents and teachers will be provided with critical data that can be used for additional support and intervention to our students.
